**Re: Intention to Resubmit  
Certificate of Public Convenience and Necessity  
Oldham County Water District - Water System Improvements Project  
CASE NO. 2008-00380  
GRW Project No. 3257-09**

Dear Ms. Stumbo:

Per my discussion with Mark Frost and Todd Osterloh yesterday, GRW Engineers would like to resubmit the Certificate of Public Convenience and Necessity on behalf of the Oldham County Water District. The resubmittal will be made under KRS 278:023 and the project will be federally funded.

The original submittal to PSC on September 10, 2008, included ten (10) copies (binders) of the checklist (under KRS 278.020) for the Certificate of Public Convenience and Necessity, along with four (4) sets of plans and specifications for the above referenced project. If possible, we would like to have the ten (10) binders and plans and specifications returned to GRW Engineers to reuse and resubmit to PSC. They may be returned to my attention at the address listed above. Once the information for the resubmittal is obtained, GRW Engineers will submit the information to PSC for approval.

If you have any questions or need any further information, please let me know.

Sincerely,

A handwritten signature in black ink that reads "Shanna Stone". The signature is written in a cursive, flowing style with a large initial 'S'.

Shanna Stone, E.I.T.  
Project Engineer
